PROFESSIONAL SUMMARY

Results-driven AI Backend Developer with strong expertise in Generative AI, RAG pipelines, and scalable backend system development. Experienced in building production-ready AI applications by integrating Large Language Models into FastAPI architectures using Python, LangChain, Groq, and modern AI frameworks.

Skilled in designing RESTful APIs, intelligent chatbots, computer vision systems, OCR automation, and vector search workflows with clean and maintainable code. Proficient in PostgreSQL, MongoDB, Docker, AWS Textract, MediaPipe, FAISS, and cloud deployment. Passionate about backend scalability, intelligent data processing, and building modern AI-powered solutions end to end.

TECHNICAL SKILLS

Languages

Python, JavaScript, TypeScript

Backend & APIs

FastAPI, REST APIs, Pydantic, WebSockets, JWT, JSON, Docker

Generative AI & LLMs

LangChain, Groq, LLMs, RAG, Prompt Engineering, Hugging Face, FAISS

ML & Vector Search

Sentence Transformers, Scikit-learn, NumPy, Embeddings, Similarity Search

Computer Vision & OCR

MediaPipe, OpenCV, AWS Textract, OCR, PDF Processing, Hand Tracking

Databases & ORM

PostgreSQL, MongoDB, SQLite, DynamoDB, SQLAlchemy, Neon

Frontend & DevOps

React, TypeScript, Vite, HTML, CSS, Tailwind, Git, Netlify, AWS S3, RPA

EDUCATION

BS Artificial Intelligence 2025 – 2028

Iqra University — Focus on machine learning, NLP, and intelligent systems

DAE Computer Information Technology 2021 – 2023

Aligarh Institute of Technology — Software development and IT fundamentals

Web Development Certification

Aptech — HTML, CSS, JavaScript, Bootstrap, PHP, Laravel, MySQL

PROFESSIONAL EXPERIENCE

AI Backend Developer

5 Months

Ignite & Infinite

- Developed AI-powered backend solutions using FastAPI, Docker, PostgreSQL, DynamoDB, and LangChain.
- Integrated AWS Textract for OCR-based document processing, field extraction, and automation workflows.
- Built scalable REST APIs and RPA pipelines for intelligent data extraction and backend optimization.

Social Media Marketing Intern

4 Months

Corex International

- Managed brand content, audience engagement, and digital marketing campaigns across social platforms.

PROJECTS

Gotham Telekinesis

[Live Demo](#)

[GitHub](#)

Full-stack AI hand-gesture game where players control Batman using real-time computer vision. Features MediaPipe hand tracking, JWT authentication, FastAPI backend, PostgreSQL, WebSockets, and a responsive React frontend.

Stack: React, TypeScript, FastAPI, MediaPipe, OpenCV, PostgreSQL, Docker, Netlify

AI Resume Screener

[Live Demo](#)

[GitHub](#)

AI-powered resume screener that turns CVs into instant hiring insights — match score, skills analysis, and smart recommendations for recruiters and hiring teams.

Stack: FastAPI, Groq, Sentence Transformers, Scikit-learn, NumPy, pypdf, Docker

RAG Chat Application

[Live Demo](#)

[GitHub](#)

Retrieval-augmented generation app to ask questions about PDFs. Upload documents, embed content into a FAISS vector index, and receive grounded LLM answers using only file-based context.

Stack: FastAPI, Python, FAISS, Groq Llama 3.3, LangChain, Vector Search

ALFRED-X AI Chatbot

[Live Demo](#)

[GitHub](#)

AI chatbot with FastAPI and Groq LLMs, LangChain prompt logic, and REST APIs for scalable user interaction, session handling, and intelligent response generation.

Stack: FastAPI, Groq, LangChain, REST API, Netlify
